COUNTY COOPERATIVE EXTEN-  
SION CENTER  
715 CABARRUS AVE. WEST

**\*SNACKS AND DRINKS WILL BE  
PROVIDED– SEE YOU THERE!!**

The NC Wetlands Restoration Program (NCWRP), a non-regulatory state program charged with restoring our state's wetlands and streams, is conducting a *watershed planning* project in the watershed. NCWRP is seeking to protect and improve natural resource conditions in this area while also advancing community goals for your surrounding environment. Your help is needed!

Please join us on the 12th to learn more about this new project, to provide your views on issues regarding the environment and land use in your community, and to enjoy refreshments and fellowship.

\*The watershed area includes all the land and water bodies that drain to: Coddle, Mallard, Reedy and Back Creeks and the mainstem of the Rocky River

Municipalities and counties partially contained in the watershed include Rowan, Iredell, Cabarrus, and Mecklenburg Counties, and Charlotte, Concord, Kannapolis, Harrisburg,

A watershed map is available at:
