

Proposed Plan of Action for Wake County Sustainability Task Force

Notes:

- Participants learn about sustainability topics and each others' interests throughout the process by seeing educational presentations, reading assignments, and engaging in facilitated discussions
- Greater public to be engaged through an online forum, and some facilitated opportunities at meetings
- Local sustainability efforts will be highlighted throughout the process
- SMART objectives= Specific, Measureable, Achievable, Realistic, Time-sensitive
- Decisions to be made by consensus through facilitated collaborative decision-making
- Decision criteria includes environmental and economic sustainability
