

Table 1. A summary of the species and cultivars recommended by the panelists at METRIA II.a

Genus, species, var. or cv.	Hardiness zone ^b /	Maximum height ^c /	Number of Nominations ^d /	Panel Choices ^e /	Refer to Pages ^f /
Acer buergerianum	5		1		6
Acer campestre	4	25	1	N	26
Acer ginnala	2	20	1		26
Acer griseum	5	25	1		40
Acer rubrum var. drummondii	3		1		11
Acer saccharinum	3	70	1	N	17
Acer saccharum var. nigrum		70	3	A, N	10, 18, 25
Ailanthus altissima	2		1		9
Alnus glutinosa pyramidalisor spp.	3	60	2	A, N	7, 19
Carpinus caroliniana	2	35	1		36
Carpinus japonica	4		1		6
Castanea mollissima	4	60	1		36
Celtis (laevigata x occidentalis?)	4	50	1		25
Cladrastis lutea		50	2	M	37, 39
Cornus officinale	2	30	1		8
Corylus colurna	4	60	3	M	22, 37, 50
Crataegus crusgalli	4	25	1		26'
Crateagus punctata 'Ohio Pioneer'	4	30	1	A	8
Eucommia ulmoides	4	50	2	M	40, 50
Fraxinus tomentosa	5		1		12
Gleditsia triacanthos cvs.	4	60	1		25
Gymnocladus dioica	4		1		12
Kalopanax pictus			1		39
Larix decidua			1		39
Maackia amurensis	4	40	2		7, 22
Maclura pomifera	4	40	1		40
Magnolia kobus	4	75	1		8
Malus cvs			1		26
Ostrya virginiana		30	3		26, 27, 50
Oxydendrum arboreum	4, 5	75	1		37
Parrotia persica	5	40	1		5
Phellodendron amurense	3	40	2	M	39, 40
Picea omorika	4	60	1		5'
Populus hybrids	variable	variable	1		27
Prunus padus	3	35	1		20
Prunus virginiana	2	25	1		26
Prunus virginiana 'Shubert'	2	25	1		28
Pterostyrax hispida	5	40	1		5

Genus, species, var. or cv.	Hardiness zone ^{b/}	Maximum height ^{c/}	Number of Nominations ^{d/}	Panel Choices ^{e/}	Refer to Pages ^{f/}
Quercus acutissima	5	60	2	N	23,39
Quercus bicolor	4	50	2		26,50
Quercus imbricaria	4	60	1	N	6
Quercus petraea (selections)			1		7
Quercus schumardi			1		51
Sassafras albidum	4	50	1		23
Sorbus alnifolia	4	40	1	N	24
Sorbus x Meinichii	3		1		28
Stewartia pseudo- camellia	5	50	1		6
Styrax japonicum			1		39
Taxodium distichum	4	70	1	M	40
Tilia tomentosa	4		1	A	9
Ulmus parvifolia	5	45	2	A	13,20

a/ Includes 36 genera, 49 species, and 11 duplicates (2 triplicates).

b/ Hardiness zones as established by the Arnold Arboretum.

c/ This is the maximum projected street tree height and is not necessarily the maximum height reached in its native habitat.

d/ The number of times the tree was selected by panel members.

e/ Of all the trees mentioned by each panel, 5 were selected as the most promising; A = Arboretum Panel, M = Municipal-Highway Panel, N = Nursery Panel; the nursery panel presented 7 selections.

f/ The page in the proceedings on which the tree is mentioned.
