

NC STATE UNIVERSITY

Ecology, Management, and Identification of Migratory and Resident Birds

Coastal Plain Region

April 28, 2004
Askin, NC

Piedmont Region

May 5, 2004
Bahama, NC

Sponsored by

Forestry Educational Outreach Program
NC State University Department of Forestry
NC Cooperative Extension Forestry
NC Wildlife Resources Commission
NC Nongame and Endangered Wildlife Program
NC Partners in Flight

Ecology, Management, and Identification of Migratory and Resident Birds

About the Workshops

The objective of these workshops is to introduce natural resource professionals, forest landowners, and others to bird identification by sight and sound, and to the ecology of migratory and resident birds of North Carolina. Each workshop will explore management techniques that benefit Neotropical migratory and resident birds associated with each geographical region. Much of the workshop will be spent in the field, working on bird identification in a variety of habitat types. Classroom sessions will augment the field training.

Who Should Attend?

These workshops will be valuable to forestry and natural resources professionals who want to incorporate management techniques that benefit forests and the migratory species that forests harbor at various times during the year. Forest landowners will benefit from learning how they can positively influence the migratory and resident bird habitat on their property. Bird enthusiasts in general will enhance their understanding of birds and bird ecology in the region.

About the Instructors

Mark Johns works for the NC Wildlife Resources Commission as the NC Coordinator for Partners in Flight, a program that focuses on conservation of migratory birds throughout the Americas. Mark has been an instructor in the Department of Forestry at NC State University since 1990 and was formerly the Chief Naturalist at Hemlock Bluffs Nature Preserve in Cary, NC.

Chris Moorman is an Assistant Professor and Forestry Extension Specialist at NC State University. Chris works with professionals and private landowners interested in the effects of forestry practices on wildlife. During the past ten years he has conducted several research projects to investigate potential effects of forest management on birds.

CFE Credits

Continuing Forestry Education credits have been requested from the Society of American Foresters. Credits will be posted on the FEOP website once approved: www.ncsu.edu/feop.

Registration and Fees

The registration fee is \$80 per workshop. This includes course handouts, refreshments, and lunch. Registration deadline is April 21st. Space in both workshops is limited. We will create a waiting list if necessary. Online registration is available at www.ncsu.edu/feop. Cancellations made by April 21 will receive a refund less a \$20 service charge.

Workshop Locations

The **Coastal Plain** workshop will be held at Cool Springs Environmental Education Center, Askin, NC (Craven County). The **Piedmont** workshop will take place at the Hill Demonstration Forest, off Highway 15-501 in Bahama, NC (Durham County). A map indicating the exact location of the workshop will be included with your registration confirmation letter. Lodging is not included.

Upcoming Workshops and CFE Opportunities

- May 10: Forest Soils (Morganton, NC)
- June 7-8: Accurate Forest Inventory (Raleigh, NC)
- June 9: Managing Access to Land (Teleconference Series)
- June 29: Certification Assessor Training (Raleigh, NC)
- June 30: Group Certification for Forest Managers (Raleigh, NC)

Visit www.ncsu.edu/feop to register! Number of CFE credits will be posted online once approved.

For upcoming workshops and more information on the Forestry Educational Outreach Program visit the FEOP home page at www.ncsu.edu/feop or contact Becky Townsend at 919-515-9563 (phone), 919-515-6883 (fax), or becky_townsend@ncsu.edu

Ecology, Management, and Identification of Migratory and Resident Birds

Coastal Plain: Wednesday, April 28, 2004, Askin, NC
Piedmont: Wednesday, May 5, 2004, Bahama, NC

- 8:00 a.m. Registration
- 8:30 a.m. Introduction to bird conservation in the region and Partners in Flight (indoor)
- 9:00 a.m. Introduction to bird song (outdoor)
- 11:00 a.m. What are Neotropical migratory birds? (indoor)
 - Populations and global environmental change
 - Recent study results
 - Regional trends
- 11:30 a.m. A review of suggested observation equipment (indoor)
 - Field guides
 - Bird identification tapes
 - Binoculars
- 12:00 p.m. Lunch (provided)
- 12:30 p.m. Managing for Neotropical migratory and resident birds (outdoor)
 - Industry forest lands
 - Natural stands
- 2:30 p.m. Meet the cast of characters (indoor)
 - Bird-friendly slide show
- 3:30 p.m. Final discussion
- 4:00 p.m. Adjourn

Note: The agenda for each of the workshops will depend on the weather. However, the workshops will take place, rain or shine. Please dress accordingly.

Registration Form

Ecology/Management/ID of Migratory/Resident Birds
Registration Deadline is April 21st, 2004
