# Shortleaf Restoration

January 11, 2006 from 9:00 AM to 12:00 PM

## Program

Shortleaf pine is one of the most widely distributed southern yellow pines in the US. In North Carolina it is a valued species in the piedmont and mountain regions but was once found across the state. Recent US Forest Service forest inventory data indicate a significant decline in the acreage of shortleaf pine. The purpose of the workshop is to communicate research and management knowledge and to inspire efforts into shortleaf pine restoration, establishment, and management across North Carolina.

## Topics

- The Historical Ecology of *Pinus echinata*
- Silvics of Shortleaf Pine
- The Risk of Littleleaf Disease, Pitch Canker and Other Forest Pests in Shortleaf
- Where Shortleaf Likes To Be: Soil and Site
- Why Shortleaf?: Values and Growth & Yield of Shortleaf

## Speakers

**Dr. Gary Blank**, Forestry Professor, North Carolina State University

**Bill Pickens**, Pine Silviculturalist, NC Division of Forest Resources

**Rob Trickel**, Pest Control Forester, NC Division of Forest Resources

**Albert Coffey**, Forester and Soil Scientist, Natural Resource Conservation Service, retired

**Fred White**, Chief Forester, The Forestland Group

## Delivery

NC State Extension Forestry and the Forestry & Environmental Outreach Program are pleased to present this teleconference, via the NC Research and Education Network two-way, interactive video-teleconference medium. This format allows attendees to interact with experts and other participants from across the state.

**SITE IN SOUTH CAROLINA:** We have added a site in Conway, SC. To attend at that site, contact Brian Clark, Horry-Georgetown Technical College, 4003 South Fraser St, Georgetown, SC 29440, (843) 520-1418, Fax: (843) 546-1437, Email: Brian.Clark@hgtc.edu and register with him.

## Special Notes

The workshop will begin promptly at 9:00 AM and end promptly at 12:00 PM. Please allow extra time for obtaining necessary parking permit, locating visitor parking and locating the video teleconference site on the college campus of your choice. All video teleconference sites are non-smoking! We will provide reasonable accommodation for persons with special needs when requested in advance of the workshop.

## Cancellation Policy

If cancellations are made before the registration deadline, the registrant will receive a full refund less a \$10 service charge. Refunds will not be given for cancellations after the deadline - in this case it is recommended you send a substitute. We reserve the right to cancel any conference. In this case you will receive a full refund.

## Registration

Shortleaf Restoration - Jan. 11, 2006

Pre-registration is required!!!

**One registrant per brochure, for more brochures visit:**

[www.ces.ncsu.edu/nreos/forest/forestryissues.htm](http://www.ces.ncsu.edu/nreos/forest/forestryissues.htm)

Upon receipt of registration and payment, participant will receive confirmation and teleconference site location map.

**Sign up for one site (Please check one):**

- Alleghany High School (Sparta)
- Brunswick Community College (Leland)
- Elizabeth City State University (Elizabeth City)
- Forsyth Technical Community College (Winston Salem)
- Halifax Community College (Weldon)
- Montgomery Community College (Troy)
- Mountain Horticultural Research & Extension Center (Fletcher)
- NC State University (Raleigh)
- UNC-Pembroke (Pembroke)
- Vernon James Research & Extension Ctr (Plymouth)
- Western Carolina University (Cullowhee)
