Preface.....	16
Awards	18
Aerobic Treatment Units.....	23
Bruce Lesikar, Texas A&M University	
Recirculating Media Filters	
John Buchanan, University of Tennessee	24
Performance of Pretreatment Systems	
George Loomis, University of Rhode Island	25
Biomat Effects On Wastewater Infiltration From Onsite System Dispersal Trenches	
S.D. Finch and L.T. West, University of Georgia	26
What needs to be done – History of tort claims	
Andy Adams, NCDENR-OSWW	36
Permit Nightmares - Case Studies	
Gene Young, NCDENR-OSWW	37
An overview of programs across the state	
Kae Arrington – NCDENR-OSWW	38
County Quality Assurance Case Studies	
David Womack, Union Co. HD	
Donnie Newton, Guilford Co. HD	39
Alternative Trenches	
Bob Rubin, North Carolina State University, emeritus	40
Soil Evaluations, Non-Gravel Drainfield Products, and Drainfield Size Reduction	
Larry West, University of Georgia	41
Performance of Chamber and EZ1203H Systems Compared to Conventional Gravel Septic Tank Systems in North Carolina	
R.L. Uebler, S. Berkowitz, P. Beusher, M. Avery, P. Burke, and K. Arrington, NCDENR-OSWW	42
Reporting County Level On-Site Activities	
Kae Arrington, NCDENR-OSWW	48
Tire Chips Installations	
Barbara Grimes, NCDENR-OSWW.....	49

Case studies: Risers and Tank Locators Tricia Angoli, NCDENR-OSWW	50
Drain field options after advanced pretreatment George Loomis, University of Rhode Island	51
Pumping to proprietary systems George Pendergrass, Catawba, Co. HD	52
How to inspect a peat system and small modifications to your LPP system Rob Crawford, Dare Co. HD	53
Overview of sampling – where we are and where we need to go Steven Berkowitz, NCDENR-OSWW	54
Design Overview John Buchanan, University of Tennessee	55
Drip Irrigation effect on Soil Properties	56
Bruce Lesikar, Texas A&M University	
Combining Drip with pretreatment technologies Steve Barry, AQWA, Inc.	57
Drip Case Study Tom Hinson, Cpec	58
Pump Overview: Darren Meyers, Zoeller, Inc.	59
Control Panels vs piggy-back systems	60
Eric Valentine, American Manufacturing, Inc.	
Pump distribution systems Reed Cranford, Union Co. HD	61
Pump longevity and trouble shooting Tim Banister, Tri-County Management.....	62
Force Mains Issues: air lock, pump design, etc John Phillips, Diehl and Phillips, Inc.	63
Evaluation of Soil Properties as Potential Indices of Suitability for On-site Septic Systems David Ward, Alamance County Health Dept.	64
Performance of Onsite Wastewater Systems in Sandy, High Water Table Soils in the Coastal Region of South Carolina: Effects on Ground Water Quality	

Dave Hargett, David Baize, Pete Stone, Tracy Barnhart, Steve Calk	65
The Daytona 500 of Wastewater Treatment: Case studies of weekly rental homes on the coast of North Carolina. Steve Barry, AQWA, Inc.	66
Importance of Laminar Flow Design in Septic Tanks Craig Jowett and Richard Lay, Waterloo Biofilter Systems, Ontario Canada.....	67
Carteret County Poonami Robert McCabe and Ben Kane, Carteret County HD	79
Developing Indicators of Contamination Originating from On-Site Wastewater Treatment Talia Chalew and Dr. Howard Weinberg, UNC-CH, School of Public Health/Dept. of Env. Sciences and Engineering	80
Hormones and Nonionic Surfactants in Septic and Soil Samples: Analytical Methods and System Evaluation Benjamin D. Stanford and Dr. Howard Weinberg, UNC-CH, School of Public Health/Dept. of Env. Sciences and Engineering	81
Coastal and Riverine Floodplain Issues and Resources Ed Curtis and Philip S. Letsinger, Floodplain Management Branch NC Emergency Management	82
NCDENR-OSWW Standards (Rules) Kevin Neal and Gene Young, NCDENR-OSWW	83
ASTM standards Joe Lynn, NCDENR-OSWW	84
Making the best use of your time Joe West, Harnett Co. HD.....	85
Use and abuse of soil survey and relate products Jennifer Tredway, USDA-NRCS.....	86
How many data points is enough? Jim Beeson, Soil and Environmental Consultants, Inc.	87
What is a competent and complete site report? Joe Kleiss, North Carolina State University	88
Locations for Field Tours.....	89
