

Table of Contents

<i>Preface</i>	17
<i>Awards</i>	18
<i>Historical Perspectives</i>	
Dr. Peggy Minnis, Pace University.....	25
<i>What Can Models Tell Us About On-Site Systems?</i>	
Dr. David Radcliffe and Dr. Larry West, University of Georgia	26
<i>The Soil Component in the National Model Code</i>	
Dr. Jerry Tyler, University of Wisconsin.....	37
<i>Mounding and Lateral Flow Analysis – Coastal Areas</i>	
Thomas Hinson, Cpec Environmental, Inc.	38
<i>Mounding and Lateral Flow Analysis – Piedmont Region</i>	
Dr. Aziz Amoozegar, NC State University.....	39
<i>Lateral Flow Analysis – Mountain Region</i>	
John Allison, Southeast Soil Science, Inc.....	40
<i>Modeling Lateral Flow, Mounding and Contaminant Transport</i>	
Edwin Andrews, Edwin Andrews and Associates.....	41
<i>Site Evaluation/Design of Large Systems</i>	
Dr. Bob Uebler and Steven Berkowitz, NCDENR	42
<i>SOP Educational Efforts</i>	
Connie Pixley, NCDENR, OSWW.....	43
<i>The Science Behind Apparent CEC, Atterberg Limits, Morphology, and Expansive Mineralogy and Regulation</i>	
Alan Clapp, Orange County Health Department Dr. Dean Hesterberg, NCSU Dr. David Lindbo, NCSU	44
<i>Soil Wetness and Morphological Relations</i>	
Dr. David Lindbo, NC State University.....	45
<i>Literature review of color, redoximorphic features and hydrology.</i>	
Erik Severson, USDA-NRCS	50

<i>Saprolite or Deep Installations</i>	
Dr. Aziz Amoozegar, NC State University.....	64
<i>Using Soil Structure for Estimating Wastewater Loading Rates</i>	
Dr. Jerry Tyler, University of Wisconsin.....	65
<i>Gravel and Sidewall Effects</i>	
Dr. David Radcliffe, Dr. Larry West, and Shelby Finch, University of Georgia	66
<i>Sources of Nutrients in Wastewater</i>	
Dr. Peggy Minnis, Pace University.....	75
<i>Fate and Transport of Wastewater Constituents in Soil Treatment Systems: Endocrine Disrupters, Pharmaceuticals and Personal Care Products, and Household Chemicals</i>	
Dr. Barbara Grimes, NCDENR	84
<i>Integrated Design Principles for Effective Water and Nutrient Management</i>	
Victor D’Amato, ARCADIS	
Dr. Hal House, Integrated Water Strategies.....	95
<i>Nitrate Groundwater Contamination from an Elementary School – A Case Study</i>	
Trish Angoli, NCDENR.....	96
<i>Stream Water Quality Monitoring Results from an Urban Residential Area That Converted from Septic Systems to Sewer</i>	
Dr. Diana Rashash, NC Cooperative Extension	97
<i>Water Quality Impacts from Onsite Systems in Nags Head</i>	
Amy Macrellis, Michael Winchell, and Mary Clark, Stone Environmental, Inc.	98
<i>Quality Assurance for Local On-Site Wastewater Programs</i>	
Roger Wesley, Burke County Environmental Health.....	99
<i>When Are “Poor Perking” Soils the Best Soils?</i>	
Cliff Stein, Earth Data Inc.	
Craig Goodwin, NCS Wastewater Solutions	107
<i>Wastewater Spray Irrigation Systems in North Carolina</i>	
Karl Shaffer, NC State University	117
<i>Centralized Low Income Assistance for Septic Repairs in NC</i>	
Terrell Jones, NCDENR	118

<i>A Decentralized Wastewater Management Plan for Nags Head: A Coastal Community's Approach</i>	
Mary Clark, Stone Environmental, Inc., Amy Macrellis, Stone Environmental, Inc., Bruce Bortz, Town of Nags Head, Todd Krafft, Town of Nags Head, and Dr. David Lindbo, NCSU.....	119
<i>A Microbial Source Tracking Case Study: Are On-Site Wastewater Systems Failing Us?</i>	
Dr. Alexandria Graves, NC State University.....	120
Remote Systems Resource Package.....	121
<i>Remote Systems: Where We've Been and Where We're Going</i>	
Heath Ward, Guilford County Health Department.....	
<i>Remote Systems: Where we've been and where we're going.</i>	
Heath Ward, Guilford County Health Department.....	154
<i>Planning Strategies and Smart Design</i>	
Chad Rakes, Forsyth County Health Department	
Alan Clapp, Orange County Health Department.....	155
<i>Permitting, Responsibilities, and Legal Issues</i>	
Tom Konsler, Orange County Health Department.....	156
<i>Construction Issues</i>	
Albert Mills, Orange County Health Department.....	169
<i>Operation and Maintenance Case Studies</i>	
Scott Greene, Guilford County Health Department	
Wayne Jones, Randolph County Health Department.....	170
<i>Case Study: An Option for a Site Suspected to Have Expansive Clay Mineralogy</i>	
Scott Greene, Guilford County Health Department	
Alan Clapp, Orange County Health Department.....	171
<i>Soil Wetness Data Interpretation Methods for On-Site Wastewater Sewage Treatment Systems in North Carolina</i>	
Tim Crissman, NCDENR	
Larry Baldwin, Land Management Group, Inc.....	172
<i>Lessons Learned from a Deep Saprolite Design and Installation</i>	
Kevin Martin, Soil and Environmental Consultants	
Curtis Hopper and Scott Wilson, Gaston County Health Department.....	173

<i>Sand Lined Trench</i>	
Toney Jacobs, S&ME	
George Pendergrass, Catawba County Health Department	174
<i>Mountain Soils: Topography, Slope, and System Options</i>	
Stuart Black, McDowell County Health Department	175
Joe Lynn, NCDENR	
<i>Limited Space and Human Error</i>	
Kathy Morris, February Associates, Inc.	
Dolores Chandler, Chandler Soil Consultants, Inc.	
Steve Bristow, Wake County Environmental Services.....	176
<i>Field Tours</i>	178
<i>Speaker List</i>	188
<i>Vendor List</i>	195
<i>Logo Contest Form</i>	196
