

ALLEGHANY 4-H 2014 PLANT SALE

Strawberries

€13 per bunch of 25 / €21 per bunch of 50		
	Quantity	Total Cost
Earliglow ~ June bearing (midseason) and produces medium size fruit that has very firm, glossy skin. Its sweet flavor makes the variety excellent for fresh eating and freezing. Plants are very vigorous and runner well; good resistance to red stele and intermediate resistance to Verticillium wilt. Recommended for beginners.		
Allstar ~ June bearing (midseason) and produces very large, light-colored sweet berries. Frost resistant. Excellent flavor with fruit that's big, firm, sweet, extra juicy and red. It is highly resistant to red stele, with intermediate resistance to Verticillium wilt.		
AC Valley Sunset ~ June bearing (late season) and produces large sized, red, shiny fruit. Flavor and yield are very good. This berry extends your season.		
Subtotal		

Blackberries

€6 per plant or 3 for €15		
	Quantity	Total Cost
Quachita (Thornless) ~ This variety has excellent quality fruit, with firm, sweet, attractive berries. Plant has very erect canes, and intermediate vigor. Plants appear resistant to anthracnose, double blossom/rosette and no orange rust seen on any plants.		
Natchez (Thornless) ~ This is the earliest ripening thornless variety with very high production potentials. Very large and good tasting berries can be harvested during a 3-5 week season. Due to its semi-erect growth habit, Natchez performs best with a trellis.		
Triple Crown (Thornless) ~ This variety is a semi-erect type plant, bears very heavy, large fruit with excellent flavor. Is winter hardy and makes a very sturdy cane system. Winds do not affect this variety as bad as others, canes do not break at base, like some types do. Triple Crown would be a good choice to help extend the blackberry season for home gardeners.

ALL proceeds are used for scholarships for youth to attend 4-H Camp & other 4-H programming

Raspberries

€6 per plant / 3 for €15

	Quantity	Total Cost
<u>NOVA Red Raspberry</u> ~ Early ripening type. Noted for its winter hardiness. But it is also very disease resistant. It tolerates temperature changes very well. Good flavor and production. Berries are firm, bright-red, medium to large in size, and have good shelf life. Canes are vigorous, growing upright with light spines.		
<u>Encore Red Raspberry</u> ~ Late Mid season bearing. Vigorous, sturdy, upright, nearly spineless and has excellent winter hardiness. Berries are large with very coherent drupelets and good raspberry flavor. Encore is a good choice for extending the summer raspberry-picking season.		
<u>Anne Yellow Raspberry</u> ~ A large-fruited fall bearer. Fruit holds a pale yellow color and is highly productive. Excellent size, appearance, and very sweet flavor make it an excellent choice for a yellow fall bearer		
Subtotal		

Blueberries

When planting blueberries, it is recommended to plant at least 2 varieties to ensure cross-pollination.

€7 per plant / 2 for €12

	Quantity	Total Cost
<u>Bluecrop</u> ~ (Northern Highbush Type) Early mid-season. Large, firm berry, good flavor. Loose fruit cluster. Upright, vigorous, productive bush. Hardy, drought resistant.		
<u>Blueray</u> ~ (Northern Highbush Type) Early mid-season. Large, firm, sweet berry. Large tight clusters. Upright, spreading, vigorous, productive ornamental.		
<u>Brightwell</u> ~ (Rabbiteye Type) Early to mid-season ripening, medium-large berry, has sweet flavor and light blue color. Growth is upright and vigorous. A consistent producer.		
<u>Climax</u> ~ (Rabbiteye Type) Early ripening, produces medium-size berries with sweet flavor. Plants are upright with intense green foliage. One of the very best for harvesting.		
<u>Jersey</u> ~ (Northern Highbush Type) Late. Medium to large berry, firm, good taste. Long loose clusters. Hardy, productive, upright, vigorous, fast-growing ornamental.		
<u>Onslow</u> ~ (Rabbiteye Type) Mid-season ripening, has medium to large size berries that are darker blue in color. Highly productive. *Self-fertile*		
<u>Patriot</u> ~ (Northern Highbush Type) Early season with large, firm fruit. Good ornamental, upright bush.		
<u>Powder Blue</u> ~ (Rabbiteye Type) Late-season ripening, highly productive with medium to large sweet fruit, darker in color. Upright plant with good foliage.		
<u>Premier</u> ~ (Rabbiteye Type) Early to mid-season, large fruit. Excellent flavor, light blue in color and good quality. Plants are upright with good foliage. Highly productive.		
<u>Tifblue</u> ~ (Rabbiteye Type) Mid-season ripening, produces medium to large berries with good color. Plants are semi-upright with moderately vigorous growth. *Self-fertile*

Herbs

<div> <div>\$5 per plant / 3 for \$12</div> </div>		
	Quantity	Total Cost
Agastache (Hummingbird Mint) ~ An essential to a pollinator friendly garden; a showy, fragrant group of perennial herbs. Excellent resistance to browsing deer and rabbits.		
Basil ~ Sweet, peppery flavor, aromatic. Uses: chicken, eggs, fish, pasta, pesto, tomatoes, Italian and Mediterranean recipes		
Basil (African) ~ This variety overwinters indoors, producing fragrant leaves year-round for cooking or ornamental use. Uses: pesto, soups, salads and dishes containing tomato, squash, beans, chicken, fish or red meat.		
Bay ~ Earthy, pungent aroma. Uses: Meats, pickling, sauces, soups, garam masala, stews, vegetables		
Catnip ~ Use in teas; fragrance for cats.		
Chives ~ Source of vitamin A. Onion or garlic flavor. Uses: Appetizers, cream soups, fish, salads, egg and cheese dishes, sauces		
Cilantro ~ Pungent, soapy fragrance. Uses: Fish, rice, salsas, salads, and Italian, Latin American and Mexican recipes		
Dill ~ Pungent, tangy. Uses: Breads, fish, pickling, salads, sauces, vegetables		
Garlic ~ Widely used for its pungent flavor as a seasoning or condiment		
Lavender ~ Gives off an intoxicating perfume; Ideal for culinary use because it's rich in essential oils. Uses: Continental cuisine, baking, teas, jellies, sugars, salts		
Lemon Balm ~ Mint-like leaves, also called balm. Sweet, lemon flavor with a citrus scent. Uses: Jams and jellies, salads, soups, teas		
Lemon Verbena ~ Use in potpourris; herb pillows; lemon flavoring for drinks, salads, and jellies; teas.		
Marjoram ~ Use fresh or dried leaves in salads, eggs, stuffings, dressings, meat, sausage, lamb dishes, vegetables, beans and soups.		
Mosquito Plant (Citronella) ~ Used in alternative herbal treatment and as an insect repellent		
Mint (Chocolate) ~ Leaves smell and taste like mint and chocolate. Used like any mint plant in drinks, salads, desserts, sauces or as a garnish.		

THANKS FOR

Herbs, cont'd.

\$5 per plant / 3 for \$12		
	Quantity	Total Cost
Mint (Curly) ~ Used in drinks, salads, desserts, sauces or as a garnish. Attractive to butterflies; fragrant		
Mint (Grapefruit) ~ Bright green leaves boast a taste that resembles spearmint with a twist of unsweetened grapefruit. Use fresh or dried leaves for garnish or in beverages, fruit salads, dessert		
Mint (Peppermint) ~ Used in drinks, salads, desserts, sauces or as a garnish. Attractive to butterflies; fragrant		
Oregano ~ Strong, aromatic with a pungent "pizza" flavor. Uses: Fish, meat, poultry, tomato sauces; Greek, Italian and Mexican recipes		
Oregano (Cuban) ~ Strong, aromatic, fleshy leafed plant used as a culinary seasoning. Uses: Fish, meat, chile pastes. The leaves are the primary seasoning in the Cuban black bean soup, Frijoles Negros.		
Oregano (Golden) ~ Uses in garden: great in containers, drought tolerant, fragrant, ground cover. Use in tomato dishes, rice, pasta, sauces, dressings, vinegars		
Parsley ~ Delicate, slightly peppery taste. Uses: Sprigs used as garnish, herb mixtures, sauces, soups, stews. Wide variety of uses.		
Rosemary ~ Sweet, hint of lemon and pine. Uses: Casseroles, fish, fruit salads, lamb, chicken, soups, stuffings, tomato sauce		
Sage ~ Musty, minty, slightly bitter, "sausage" flavor. Uses: Chicken, duck, goose, pork, sausages, stuffings		
Sage (Purple) ~ Uses in garden: as a border, great in containers, drought tolerant, fragrant. Use in meat dishes, soups, stuffing, sausage, aids in digestion. Attracts bees and butterflies. Deer resistant.		
Stevia ~ A natural sweetener; as a diet aid, may be used as a sugar substitute		
Tarragon ~ Mild licorice flavor. Uses: Eggs, meats, pickling, poultry, salads, sauces, dressings, blend		
Thyme ~ Very aromatic, minty, tea-like. Uses: Fish, meats, poultry, soups, stocks, vegetables (eggplants, mushrooms, potatoes and summer squash)		
Thyme (Variegated) ~ beautiful golden variegated leaves with a strong lemon flavor. Use for meat, fish, pasta, pizza, and oils.
