^All Value-Added BQA Sales -- Producers must follow a stringent health protocol and BQA techniques and be BQA certified.

For a BQA enrollment form or complete sale requirements, health requirements, and a vaccine schedule example for the Norwood Value-Added BQA sales, go to <http://nccattle.com/2014latesummerfallfeedercafesaleschedule.aspx>, scroll to the bottom of the page and click on whichever form you need. You may also contact Steve Lemons at 704/983-3987 or email him at sclemons@co.stanly.nc.us.

Tele-Auction Available At All Sales -- to participate in the tele-auction, call the N. C. Cattlemen's Association office at 919/552-9111 or 919/422-9108 (Bryan Blinson's cell) or the Livestock Market the day of the sale.

How Sales Operate

All sales are cooperatively conducted by the N. C. Cattlemen's Association, the N. C. Department of Agriculture and Consumer Services, the N. C. Cooperative Extension Service, market operators, and producers.

<p><u>Rules and Regulations</u> The Feeder Cattle Sales Committee of the N. C. Cattlemen's Association established the operating guidelines for the sales.</p>	<p><u>Liability</u> The N. C. Cattlemen's Association, the N. C. Department of Agriculture and Consumer Services, the N. C. Cooperative Extension Service, and the sale coordinators assume no responsibility for animals after loading in mode of transportation.</p>
<p><u>Sales Location</u> The sales are located in areas where cattle are produced.</p>	<p><u>Selling</u> All cattle sold by hundredweight at auction with auctioneer settling any disputed bids. The number of cattle per pen may vary from one to 50 or more. The sale is for the entire pen having fewer than 20 cattle. If a pen is cut, at least 10 cattle must remain in the pen.</p>
<p><u>Consignors</u> Cattle go directly from farm to market by owner/consignor.</p>	<p><u>Health</u> Calves selling at assembled sales are to be vaccinated for Blackleg and Malignant Edema. Cattle selling directly from the farm may have additional treatments and will be designated.</p>
<p><u>Processing</u> Cattle are tagged and weighed as received.</p>	<p><u>Shipping</u> It will be helpful for buyers to make tentative arrangements for hauling before purchasing cattle. The management of individual sales will cooperate where possible in making trucking arrangements. They cannot, however, guarantee transport of all cattle.</p>
<p><u>Penning</u> In barn cattle will be separated as to breed, sex, grade and weight. Where space is limited, certain breeds may be penned together, however, they will be listed separately on the sale order. Provisions have been made for selling cattle directly from the farm. Generally, these cattle will sell in conjunction with the in-barn cattle in truck load lots. Most of these are not listed on the schedule.</p>	<p><u>Prompt Pay Requirement</u> Under G. S. 196, Article 35A, the North Carolina law requires that all livestock sold at public livestock markets are to be paid for on the same day of purchase. Buyers are to pay for cattle before the animals are moved.</p>
<p><u>Grading</u> The grading will be done by trained graders working for or under the supervision of the N. C. Department of Agriculture and Consumer Services.</p> <p>Grades are as follows: L1 - large-frame cattle, average or above in thickness M1 - medium-frame cattle, average or above in thickness S1 - small-frame cattle, average or above in thickness LM2 - variable in frame size, thin to average in thickness</p> <p>Cattle not qualifying for sale because of size, health, physical conditions, or not meeting other standards established by the Sales Committee cannot be offered for sale.</p>	<p style="text-align: center;"><u>ALL BUYERS ARE REQUESTED TO PROVIDE CREDIT REFERENCES BEFORE BUYING.</u></p>
