Date: Nov. 12, 2014

FOR IMMEDIATE RELEASE

Apples, peaches, pears and more! Could you use some guidance on managing your fruit trees, or are you interested in planting fruit trees for your home use and don't know where to begin?

Cumberland County Cooperative Extension is sponsoring a fruit tree production workshop on Thursday, Dec. 4, from 6:00 p.m. - 9:00 p.m. The free workshop will focus on fruit tree management. Dr. Mike Parker, an Extension Horticultural Specialist with N.C. State University, will provide information on what to consider before planting and to explore what fruit tree crops you could possibly grow. Dr. Parker will be available to address all of your fruit tree questions.

The workshop will be held in the Cumberland County Cooperative Extension Auditorium, located at 301 East Mountain Dr., Fayetteville. Registration is requested, but not required. For additional information concerning this workshop or to register, please contact Theresa Williams, Extension agent, Urban Horticulture, at 910-321-6870 or via email theresa_williams@ncsu.edu.

For accommodations for persons with disabilities, contact Theresa Williams at 910.321.6870, no later than five (5) days before the event.
