

NED 4-H AG-SCIENCE

Northeast District 4-H

July 12-14, 2016

The Northeast District 4-H Advantage

Every county in the Northeast District has the opportunity to bring youth to the upcoming NED 4-H Ag. Science Camp. This camp is designed for youth that has an interest in agriculture from animal agriculture to wildlife & environmental studies. The youth that are eligible to attend must be rising 6th– rising 10th grade. If this is you...don't miss this opportunity!

Four tracks of learning offered:

Track 1: Animal Science

Those youth that are interested in livestock production will get a hands-on learning in various aspects of animal husbandry from genetics, reproduction & anatomy.

Track 2: Horticulture Science

This track will have a hands-on approach to learning about an in-depth study of horticulture, soils, including field trips to local farms & businesses to learn the total production side of this industry.

Track 3: Crop Science/Biotechnology

This track will offer hands-on learning in the field. You will have an opportunity to learn about various research projects that are being conducted, soil, pest identification, including field trips to various farms & businesses to learn crop production & utilization.

Track 4: Wildlife & Environmental Sciences

Youth that are interested in learning about wildlife habitats, identification, and conservation strategies and hunter safety! Don't miss your opportunity to get hands-on with the WILD...furs, tracks, bones & even archery!

CHALLENGE 2050

“Agriculture in the 21st century faces multiple challenges: it has to produce more food and fiber to feed a growing population with a smaller rural labor force.”

- Global Agriculture

Cost: \$100

- Covers the cost of lodging, meals, entertainment & t-shirt.
- Lodging will be in the dorms at Wesleyan College– Rocky Mount, NC
- Sign up on a first-come, first-serve basis!
