4-H PRESENTATIONS & PUBLIC SPEAKING

This competition allows youth the opportunity to present information by demonstration or illustrated talk for competition. The time limit is generally between 5 and 12 minutes, with specific time regulations in specific categories. This competition is an excellent opportunity for youth to build their confidence, knowledge, and public speaking skills. Each county determines how 4-H'ers are selected to compete at district competition. Like 4-H Entertains, please note the following: Youth must be between the ages of 9-18 to enter and Cloverbud 4-H'ers (5-8 year olds) are encouraged to participate and/or present, however, they are not eligible to go on to district level. <http://www.nc4h.org/nc4h-publications/presentations/presentation-regulations>

SCIENCE FAIR

4-H participants are also invited to share their science projects. Science fair projects may also be incorporated into a 4-H presentation category and/or 4-H project records. Youth will display themselves and their exhibits in a "back to board" format and make themselves available to answer audience questions and explain their project and/or research as they browse the science projects in the display area that will be set up. Youth may use science projects they have completed in school or as part of a home school curriculum. For specific details and information on qualifying science projects, please contact 4-H agent, Angela D. Galloway (adgallow@ncsu.edu) as well as for youth registration and preparation information. Please see link for science project ideas correlated to 4-H.
