

FARMLAND TRANSITION WORKSHOPS

For landowners and families

LEARN ABOUT

- Retirement planning tools for farmers and land managers
- Asset management
- Family decision-making
- Transfer of property to non-family members

Advisors available at no cost to assist

THE SPEAKERS

- **Andrew Branan:** an Extension Assistant Professor with NC State, has worked as an attorney in private law practice providing business and estate planning support to landowners who want to keep their farms, forests and other natural resource assets productive as they pass ownership to the next generation.
- **Guido van der Hoeven:** an Extension specialist and senior lecturer at NC State University, has 30+ years of experience helping farm and timber landowners develop goals when landowners want to transfer management or ownership. He works to blend the needs of the exiting generation with the needs of the incoming generation.
