**DWARF** - Blooms in late summer; reddish orange fruit that is slightly smaller than a tennis ball with great flavor. Shrub grow 3-4 feet tall and 2 feet wide. Garden or container plant.

# 2021 Extension Spring Plant Sale

## VARIETIES AVAILABLE

### **PERSIMMON: At least two varieties must be planted to ensure cross-pollination**

**3-gallon containers \$25 each**

**AMERICAN PERSIMMON** - Round yellowish orange fruit that is edible after a good frost. Trees can reach 40-60 feet tall and live 30-80 years. Plant two or more trees for better pollination and maximum yields. Great for wildlife.

### **APPLES: At least two varieties must be planted to ensure cross-pollination**

**5-gallon containers \$25 each**

**RED DELICIOUS** - Large fruit with dark red skin, crisp, juicy and ripen mid-season. Very vigorous growth and produce high yields.

**RED ROME** - Rounded, all red, very glossy with a thick skin and firm flesh. Eating apple but are primarily used for baking, as its flavor develops when cooked and holds its shape well. Ripens mid-October. Self-pollinating.

### **PEACHES: Self-Fertile 5-gallon containers \$25 each**

**CONTENDER** - Fruit are large with red blush, firm yellow flesh, freestone and blooms late.

**RED HAVEN** - Fruit are medium with bright red skin, yellow flesh, good flavor, freestone and ripens early. Trees are vigorous growing, self-fertile and very prolific.

### **PEARS: At least two varieties must be planted to ensure cross-pollination**

**5-gallon containers \$25 each**

**MOONGLOW** - Fruit are medium, yellow in color, white flesh, soft, excellent and ripen early. Mild flavor with almost no grit cells. Excellent for eating or canning. Trees have upright growth and are blight resistant.

### **PLUMS: At least two varieties must be planted to ensure cross-pollination**

**5-gallon containers \$25 each**

**BRUCE** - Fruit is large with red skin and yellow or orange flesh. It is a heavy producer and grows really well in zones 5-9. The fruit ripens in mid to late May. Great for canning.

**METHLEY** - Medium to large fruit, reddish purple color, sweet juicy flesh and ripen early. Trees have upright growth, well adapted in most soils and are good pollinators.
