

## Johnston County 4-H Points of Success Program

**Description:** The Points of Success Program is a non-competitive way for youth to be recognized for their work in 4-H.

### **Goals of the Points of Success Program:**

- 1 – To increase participation of 4-H members and Johnston County 4-H Clubs.
- 2 – To provide an opportunity for youth to be recognized for their efforts in a non-competitive environment.
- 3 – To increase the level of achievement in 4-H members through increased involvement in club, county, district and state activities.

**Directions:** 4-H members should work with parents and club leaders to record all 4-H and 4-H related activities that they participate in throughout the year. Using the Points of Success explanation sheet as a guide, points should be assigned for each activity. At the end of the year, all points will be added to determine the Points of Success award category that has been achieved for that year.

**Format:** Points of Success may be kept on the form provided, an excel spreadsheet or simply recorded on paper. *All Points must be submitted with the name and age of the 4-H'er, phone number, address, club name, brief description of each activity, date of activity, and with the assigned number of points.*

**Scoring:** Please refer to the Johnston County Points of Success Explanation Sheet for points earned for each activity. If there is a question about how an activity should be classified, please contact Johnston County 4-H for assistance. Total points must be tallied for submission to be complete. **All youth submitting Points of Success to the Johnston County 4-H Office will receive recognition at the annual 4-H Achievement Night.**

### **Achievement Categories for Points Earned:**
