In March 2015 we held a two-day hops conference in Winston-Salem, NC. It was an amazing event! The first day was for beginning growers. The second day was presentations and panels of speakers on growing hops in the Southeast to meet the needs of local brewers. The conference was sold out and many people who wanted to attend were not able to get in. At the last minute, one of the attendees agreed to videotape the conference. Here are links to the videos on our Youtube channel:
