Lee County

County/Worksite Location: Lee County Cooperative Extension

Proposal/Program Area: Horticulture

Project Title: Reshaping the Landscape

Immediate/ Site Supervisor: Bill Stone

Other mentors/supervisors:
1 Minda Daughtry

Project summary and intended outcomes:

Help women farmers to develop technical, entrepreneurial and managerial skills through specialized training; to realize their full-potential to operate and sustain profitable farms as small businesses; to gain self-confidence as a businesswoman. This project will also support network among woman farmers and help them to learn to understand and manage their farm business. Request the student to assist in developing a plan of action for the project to develop necessary intellectual outputs. These are 1) Agricultural Enterprise Management Education Program, 2) Agricultural Enterprise Management Guide/Handbook, 3) E-Learning Videos, 4) Questionnaires and Analyses, 5) Articles and Presentation

What qualifications and previous coursework does the student need in order to be prepared for this internship, if any?

Some program development coursework and ability to Develop of data collection methods and tools.

What benefits/skills will the student gain through this internship?

Students will gain experience in community outreach, participatory planning and program evaluation. They will gain experience in developing recommendations for a comprehensive, multi-stage plan of action for the next steps of the "Reshaping the Landscape: Lee County Women in Agriculture Project."
