

Stanly County Extension Intern

Location: Stanly County

Program Area: 4-H

Project Title: 4-H Summer Intern

Immediate/Site Supervisor: Kacie Hatley

Other mentors/supervisors: Lori Ivey

Position

Description/Responsibilities:

In 2018, we had over 300 youth involved in our summer programming. As interest increases, as do our needs for support.

Additionally, our program is established enough to invest in an eager student with an interest in public service, youth development, or nonprofit leadership.

By hiring a summer intern, we hope to increase impacts among youth participants, increase the number of participants reached in the community, decrease the youth/adult ratio, and instill the ideals of N.C. Cooperative Extension into a college-aged student.

Preferred qualifications/previous coursework:

- Has experience working with youth
- Skilled communicator
- Tech savvy (Google applications; email; spreadsheets; can operate camera)

Benefits/skills student will gain through this internship:

- Learn firsthand the responsibilities which accompany running a nonprofit (recruiting, marketing, planning, implementation, budgeting, evaluation)
- Gain a variety of problem-solving skills through working hands-on with a diverse group of youth
- Opportunity to design, implement, and evaluate their own summer class
- Engage in a personalized mentorship with a 4-H agent to help them grow towards their desired professional goals
