

## Wayne County Extension Intern

**Location:** Wayne County

**Program Area:** 4-H

**Project Title:** Science Wagon Coordinator

**Immediate/Site Supervisor:** Jessica Hogan

**Other mentors/supervisors:** Summer Young, Barbara Byers, Kevin Johnson, Sharon Sutton

### Position

#### Description/Responsibilities:

Wayne County 4-H has a very good working relationship with the daycares in the county. We create a summer schedule to visit daycares and complete simple science activities. We also utilize Jr. Leaders to help during the Science Wagon to create groups.

This is a good way for 4-H to get out in the community and it does not cost the daycares to have this service. We require that each site receive a minimum of 6 hours of teaching.

### Preferred qualifications/previous coursework:

- Well versed in youth development
- Ideally if the student was 21 years or older it would make the program run smoother to transport themselves in county vehicles.

### Benefits/skills student will gain through this internship:

- Program planning skills
- Planning and implementing lessons
- Work directly with youth both teens and cloverbuds
