

Lee County Extension Intern

Location: Lee County

Program Area: 4-H Youth Development

Immediate/Site Supervisor: Pam Kerley, 4-H

Other Mentors and Supervisors: Bill Stone, County Extension Director

Position **Description/Responsibilities:**

The primary responsibilities for this internship will consist of 4-H program planning, development, implementation/facilitation, and evaluation.

The intern will work closely with the 4-H Program Assistant throughout the summer on programs covering a variety of topics, particularly in the areas of Science, Technology, Engineering, Arts and Math (STEAM).

Particular focus will be placed upon the intern learning/internalizing the Extension programming model approach.

The intern will also be engaged in developing innovative ways to market and promote programs, particularly as it relates to reaching underserved and limited resource audiences.

Preferred **qualifications/previous** **coursework:**

- Youth and Family Development
- Educational Program Development
- Program Evaluation and Data Analysis

Benefits/skills student will **gain through this internship:**

- Understanding of Extension Program Model
- Program Evaluation
- Facilitation Skills
- Public Speaking
- Critical Thinking
- Collaboration and Partnership Development
- Marketing and Promotion

Additional Information

Our goal through this proposed internship is to allow the individual to truly get a feel for what it is like to be an Extension professional. Although the internship will be focused primarily around 4-H programming, we always work to ensure the intern has a holistic experience and an opportunity to collaborate on multidisciplinary programming with all Agents on staff. Our Lee County office has a proven track record of giving interns a meaningful and impactful summer experience to help them springboard into the next phase of their career.
