

## Alleghany County Extension Intern

**Location:** Alleghany County

**Program Area:** 4-H Youth Development

**Immediate/Site Supervisor:** Amy Lucas

**Other Mentors and Supervisors:** Aaron Ray Tompkins

### **Position Description/ Responsibilities:**

Student intern will develop targeted programming within the Alleghany 4-H Youth Development program. They will produce and edit visual media content (i.e. videos, social media content), assist with programming and conduct learning assessments to evaluate effectiveness.

In addition to other elements of the program, the selected intern will work directly with youth participants and supervisors to help youth prepare for local, district, state and national events focusing on the Youth Dairy Program and the 4-H WHEP program. We would like to see these programs continue to grow.

Student Intern will also assist with planning and implementation of a 4-H Statewide Dairy Camp held in Alleghany to help prepare youth for showmanship events and advanced animal care.

### **Preferred qualifications/previous coursework:**

Familiarity and experience with animal science program and or NC 4-H Forest/ Wildlife Habitat Education Program a benefit, but not required.

Computer, videography, social media / digital skills are a plus.

### **Benefits/skills student will gain through this internship:**

Intern will be able to work directly with partners at county, district, state and national levels while learning and preparing youth for events.

Knowledge will be gained using communication and digital skills as well as program planning, implementation and evaluation tools.
